About The Wealthy Yogi

Amplifying Wealth & Mindfulness

LIVE THE LIFE OF YOUR DREAMS

Dr. Roshawnna Novellus – Wealth & Mindfulness Multiplier, Business Strategist, and Author uses smarter financial decisions, mindfulness, compassion, entrepreneurship and fitness to create a fabulous life.

She believes that you should lead your life with intention. She helps those who are drowning in clutter, over-scheduled, overwhelmed, always rushing, losing sleep, and are constantly under pressure. She whole-heartedly believes that finances do not have to be stressful, and that having a solid financial strategy is the key to successfully reaching business goals.

Dr. Novellus holds a Doctor of Science in Systems Engineering, with a Minor in Finance from George Washington University; a Master of Science in Information Technology emphasizing Information System Engineering; a Bachelor of Arts in Business Management Economics; and a Bachelor of Science in Computer Engineering–achieving Summa Cum Laude in each.

As a Federally Licensed Enrolled Agent, she represents taxpayers in front of the IRS, and has also passed the Series 7 Exam. Dr. Novellus is a member of The National Association of Tax Professionals and a member National Association of Enrolled Agents. She attended The National Tax Practice Institute and American Society of Tax Problem Solvers Certification Programs.

Her financial firm, Novellus Financial, provides business consulting and financial strategy to small and mid-level businesses interested in hands on assistance in maximizing wealth and reaching their goals. After serving multiple businesses in the high-tech sector, she Co-Founded Bootstrap Capital, to assist deserving diverse dreamers and those wanting to invest in the innovation ecosystem, accomplish their dreams.

Dr. Roshawnna Novellus is known as The Wealthy Yogi for her insightful thought leadership into guiding generations of people to financial balance. The goals of The Wealthy Yogi is to advocate for more mindful outlooks while pursuing strategic objectives. She offers a form of yogic finance that combines the mental and physical elements of yoga to reduce stress, improve self-confidence, enhance creativity and boost happiness. Through her Lifestyle Assessment individuals determine where their lives are out of balance and work with Dr. Novellus on discipline techniques and accountability.

Author

Budgeting Is More Liberation than Limitation takes a holistic look at your finances and budget. It highlights the importance of creating and following a budget by speaking to the one thing that everyone understands: FREEDOM. While providing practical examples and insights, this book explains how budgeting and actively managing your finances can give you the freedom to live the life you desire.

Did you know that the single biggest reason why families run into financial difficulty or amazing startup businesses fail is because of cash flow problems caused by poor or, worse, non-existent budgeting?

You're probably rolling your eyes at the thought, or you feel trapped and get sweaty palms at the thought of budgeting. Here's the thing – YOU ARE NOT ALONE!

Dr. Roshawnna Novellus teaches you how to live the life of your dreams, without feeling stressed or over charged. There are some surprisingly simple but extremely powerful techniques that you can use right now to get more for your money, just by using it a bit smarter.

This won't require an enormous amount of willpower or any "extreme" commitments. And although budgeting is part of the process, budgeting does not mean cheap, lower value, sacrifice, or struggle.

In fact, by learning to budget your money and therefore use it more efficiently, you will actually end up with nicer things and more money for the things that really matter to you. Learning to manage your money and make smart financial decisions will empower you to live a life that you absolutely love.
